We like to think of ourselves as an affordable, customized, high-quality wedding photography studio specializing in moderately sized wedding events. We work closely with our clients from the start. While we strive to capture a complete photographic expression of the beauty and joy of your wedding day, we love to capture images that reflect your personality: those personal expressions of love and celebration from yourselves as well as your family and friends. We will work with you as a team to produce a beautiful and complete collection of images. **We are generous regarding your image rights and our image processing is exceptional – see page 3.** We are dedicated full time professional photographic artists – not dilettantes. We treat our clients as our friends: we respect them, we encourage them to inspire us, we endeavor to produce art together to be enjoyed for generations. While we aren't the least expensive studio out there, we are the most affordable studio offering the quality and personalized service we provide for moderately sized weddings. We have never received under a five-star review in our entire history – anywhere – on over three hundred reviews. The Knot and WeddingWire have both ranked us #1 in our price range.

Principal Artist/Manager Rebecca Haas earned a Fine Arts degree from UMSL in 2010 and has been a professional photographer since 2008. She is an extremely creative artist. She constantly challenges herself to find new avenues of photographic & multi-media artistic expression. View her portfolio online.

Principal Artist Gara Elizabeth Lacy earned a Masters in Studio Arts. She is a full time professional (edgy) photographic artist. She paints beautifully as well. She treasures capturing personally magic moments. View her portfolio online.

Owner/Manager/Artist & Principal Editor Guillermo Gomez has over 25 years of experience as a St. Louis Wedding photographer. He was one of the first two wedding photographers in the entire metro area awarded "Hall of Fame" status by The Knot and has always won "Couples Choice" from Wedding Wire.

A synopsis of our wedding photography service:

Step one: You select your artist on our extensive website portfolio section at Dreamlightart.com, interview (chat directly with) your artist, choose the number of hours of service, and contract for the agreed service by specific artist and number of hours.

Step two: You keep in touch with your artist and refine your wedding day photography plans over time. And have a more in-depth planning session with your chosen artist closer to the wedding date.

Step three: The artist (or two artists or even an assistant also) helps you capture your lovely wedding day in a wonderful collection of images often numbering around a hundred per hour of finished images. More if two artists are shooting.

Step four: Those images are image/color processed with meticulous care – often meaning two and half hours of image processing work per hour of shooting on the wedding day – sometimes more. Few studios at any price in the metro area offer this level of image processing. The images are truly finished and ready for you to enjoy to the max!!

Step five: The images are provided to the client (with full rights) as jpg images in four different sizes: Full Resolution: often over 11 megabytes each, Mid Resolution: around 2-3 megabytes each, and Small Resolution: from 250-350 kilobytes each, and finally the “EasyShare” collection that are around 1-1.4 megabytes each.

The Full Res images are mostly for archival purposes or for a large art wall print (16x24” or larger). Use a professional lab for this – we can advise.

The Mid Res images are the most practical for normal printing (4x6” to 11x14”).

The Small Res images are useful for social media and for sharing to view on a device or to send several at once in an email. They are not meant for printing except perhaps as 4x6” prints.

The “EasyShare” images are uploaded to the cloud as a single zip file and a unique link to the secure site is sent to the client. If the link is shared, anyone the client wants to share with – anywhere in the world - can have super easy access to the entire collection of images from the wedding. This collection can be password protected, but the link is unique to each client and so has built-in security. These images are printable to 8X10”.

Step 6: You should now be ready to enjoy your lovely images to the max in any way you choose! You can design and produce your own album for instance – or have us do so for you (we offer true Italian leather cover albums). Get as creative with them as you like!! We expect you will truly enjoy them to the max!

On our Style and Image Processing:

Our Art, Our Style, and our Dedication:

We are all dedicated professional artists. We are not dilettantes pretending to be such. Currently, five of us have university degrees in photography or teach photography at prestigious local universities. The only one who does not, myself, has over thirty years of experience in wedding photography. We are professional artists because we love to create art and value your sponsorship in that regard. It is how we make our living. Without your sponsorship, we could not be professional artists. So, we better be good at it. This is the image capture aspect of our service.

Please view our extensive portfolio section on our website (dreamlightart.com) to get a feel for our individual art and styles. You will find each wedding there unique – we are artists, not robots following a repetitive image script for each wedding. We try to strike a nice balance between being entirely creative and gathering all the unique ingredients presented to us at each of our weddings in terms of personalities, the environment (the potential scenes), the available light, our professional light augmentation, if necessary, and all within the restriction of the time available to us – to create unique images for you that are totally fresh for every wedding we shoot. You will find some repetitive themes in our portfolios – but you will also find many unique qualities in every wedding we shoot. You should get a feel for the fact that we can capture for you an artistic rendition of the unique story of your day in light – the very definition of photography in the original Greek.

The quality of our image processing is rare in the metro area at any price:

Besides excellent image capture by truly professional photographic artists, we also offer an almost unique service in the way of our image color processing/editing. We would probably have great reviews regardless – but I firmly believe the reason we have had hundreds of nothing but perfect reviews over the last eight years is also due to the quality of our image editing and color processing.

We take image color processing/editing as seriously as the image capture aspect of our photographic art. We consider it a photographic art equal in importance to the image capture aspect of our art. And it is actually way more time consuming. We color process/edit for around two and a half hours for every hour we shoot. Often more. And that is with a great computer and a super-efficient process and work flow and decades of experience to facilitate the endeavor.

Most studios don't even try to offer the quality we offer in image processing/editing regardless of price. It is extremely difficult to do consistently well – in fact, a rare talent – and always extremely time consuming even in its most efficient production. Even some of the finest studios in the area farm-out this aspect of their art to overseas contractors for this reason. They then have little control and their editing quality doesn't compare. Or they use pre-packaged filters to create images that may be artistic, but have little resemblance to reality on planet Earth. Our images are lush and real. Every single one.

The ultimate resulting collection is greatly appreciated by our clients. Though they might take the editing/processing it took to produce the quality of their image collection for granted - they just love their images and that is our goal. That's OK with us – we take our satisfaction in the over three hundred universal 5 stars our clients have given us in reviews. That is a fine reward. The satisfaction of our clients means a lot to us.

We always work very closely with our clients. Please view our extensive website portfolio page at <https://dreamlightart.com/our-main-portfolio-page/> for specific information about, extensive demo galleries by, and the hourly charges for specific talents.

Italian Leather GraphiStudio Album:

GraphiStudio is located the foothills of the Alps of Northern Italy. Besides a modern production facility, they have a beautiful castle: **The Ceconi Castle.**

It is impossible to exaggerate the quality of these albums – we have carried them for over 20 years and never had a single one come back with any defect. Their printing is incredibly lush. The spreads just glow. They open totally flat and the center fold is basically unnoticeable. True custom design is included with these albums – extreme artistic care in every way. We take a lot of time to make these “just right” works of art and craftsmanship. Each image is refined individually to the max even before the layout and final design work begins. Our clients are very happy with their albums.

Our Album Design Philosophy and Process (Enhanced Elegance):

We custom design albums for our clients with a simple artistic philosophy: We want to maximize the impact of each individual photographic image and not detract from that art while placing those images into an elegant presentation. We start by refining your selected images for your album to the max in concert with you. Then we create a beautiful layout for you to consider and refine and approve. Finally, we refine the presentation of that layout artistically and the design is completed when you are happy with that final design. We refer to this design style as “Enhanced Elegance”. These elegant designs are then presented in a gorgeous real Italian Leather Album. The presentation can be further enhanced, and the album protected by a fine engraved wood cover and linen-lined box - see image below.

Graphi Studio offers over 50 different Italian leather types and colors including the Italian “fashion” leathers that the \$500 Italian shoes are made of.
