Introduction to Dream Light Art Photography

We like to think of ourselves as an affordable, customized, high-quality wedding photography studio specializing in beautiful image capture for any wedding event. We work closely with our clients from the start. While we strive to capture a complete photographic expression of the beauty and joy of your wedding day, we love to capture images that reflect your personality in a creative manner. We will work with you as a team to produce a beautiful and complete collection of images. We are extremely generous regarding your image rights and our image processing is exceptional – see page 3. We don't know how we could make your acquisition of your images more convenient or complete or more easily shareable with all your friends and family. And our image processing is as good as that of any studio we know of at any price in the metro area. We place extreme value on the quality of our post-production. Many studios in the area have no idea even what that is or what it can be. A lot of the value you receive for your investment in our services resides in that area of our photographic art - it is one of our defining features and makes us almost unique in the metro area. And once again, we are extremely generous in granting you full rights to all the images we have captured and carefully produced for you.

While we aren't the least expensive studio out there, we are the most affordable studio offering the quality, value, and personalized service we provide for weddings of most any size. We are dedicated full time professional photographic artists – not dilettantes. While we charge the absolute minimum we can while remaining truly professional on a high level, we have to charge more than the “fast food joints” in our industry. But we are carefully designed to provide you with the absolute best value for your investment in our art and for most any sized event. A “synopsis” of our service is on the following page.

We treat our clients as our friends: we respect them, we encourage them to inspire us, we endeavor to produce art together to be enjoyed for generations. We have never received under a five-star review in our entire history – anywhere – on over three hundred and fifty reviews!

The Best Quality/Affordability Balance Possible

There are five key reasons for this:

1) The Quality of our professional talent and our dedication to our art:

We are all dedicated professional artists. We are not dilettantes pretending to be such. Currently, five of us have university degrees in photography or teach photography at prestigious local universities. We are professional artists because we love to create art and value your sponsorship in that regard. It is how we make our living. Without your sponsorship, we could not be professional artists. So, we had better be good at it. We are not doing this to get rich, but to make a living and for the joy of sharing our art in helping you capture one of the most important, joyous days of your life. That is very rewarding in itself, and an honor, and we treat it as such.

Please view our extensive portfolio section on our website (dreamlightart.com) to get a feel for our individual art and styles. You will find each wedding there unique – we are artists, not robots following a repetitive image script for each wedding. You should get a feel for the fact that we can capture for you an artistic rendition of the unique story of your day in light – the very definition of photography in the original Greek.

2) The Quality of our Image Color Processing/Editing is rare in the metro area at any price:

Besides excellent image capture by truly professional photographic artists, we also offer an almost unique service in the way of the quality of our image color processing/editing. Most studios don't even try to offer the quality we offer in our image processing - regardless of price. We would probably have great reviews regardless – but I firmly believe the reason we have had hundreds of nothing but perfect reviews over the last ten years is also due to the quality of our image editing and color processing. **Unless you pay over \$4000 for your wedding photography at most other studios in the metro area, you are probably not getting the image processing quality we offer all our clients.** Usually, not even then.

We consider color processing/editing a photographic art equal in importance to the image capture aspect of our art. And it is actually way more time consuming. We image process for around two and a half hours for every hour we shoot. Often more. And that is with a great computer and a super-efficient process and workflow and decades of experience to facilitate the endeavor. We process from RAW images to your finished JPGs.

Even some of the finest studios in the area farm-out this aspect of their art to overseas contractors for this reason. They then have little control and their editing quality doesn't compare. Or they use pre-packaged filters to create images that may be artistic, but have little resemblance to reality here on planet Earth. Our images are lush and real. Every single one.

The ultimate resulting collection is greatly appreciated by our clients. Though they might take the editing/processing it took to produce the quality of their image collection for granted - they just love their images and that is our goal. That's OK with us – we take our satisfaction in the over three hundred and fifty universal 5 stars our clients have given us in reviews.

3) We offer you Full Rights to all your images and provide them in the most convenient ways possible:

1) **On a Flash Drive:** We provide you your hundreds of images in three different sizes on a Flash Drive: **Full Res:** often over 11 megabytes each, **Mid Res:** around 3-4 megabytes each, and **Small Res:** from 250-350 kilobytes each. We normally provide close to or over a hundred finished images per hour of shooting. **These images come with Full Rights!**

2) **On a lovely Online Gallery:** The “MidRes” images are also uploaded to a lovely and elegant Online Gallery site and a link to the secure site is sent to the client. If the link is shared, anyone can view the entire collection online without downloading anything at all. Real professional photographic laser prints with four resin layers and a polyester backing up to 16x24” in size can be conveniently ordered from this gallery site and shipped directly to you. As can gorgeous museum quality canvas prints hand-stretched over 1.5” frames. You won’t find anything like either of these at most retailers like Walgreens, Sams, or Costco. These only come from professional labs.

4) We offer you extremely reasonably priced professional grade prints from an elegant online gallery that can easily be shared with everyone:

As noted above, we offer a convenient and elegant online gallery that offers reasonably priced ordering of professional-grade true photographic prints and even stretched canvas works of art from all your images! **A sample price is just \$5.00 for a 5x7” print.** Compare this price to many studios that often ask three times more per print while also holding most of your digital images “hostage!” - so you have no choice if you want anything at all!! These are real professional photographic laser prints with four resin layers and a polyester backing up to 16x24” in size. You can even order gorgeous museum quality canvas prints hand-stretched over 1.5” frames. Prints like these only come from professional labs. We also offer a variety of reasonably priced high-quality albums including an absolute top of the line true Italian Fashion Leather cover album.

5) You pay for just the exact amount (hours) of professional photographic service you need with us and no more!!:

Which makes us rare for quality wedding photography services in the metro area. We don’t have a \$3200 minimum charge for our services like many quality studios in town. **We charge by the hour** from as little time as you want to whatever mega-event you have in mind! There is no quality wedding photography studio in the entire St. Louis metro area that is more flexible about customizing their services to fit their client’s exact needs.

Conclusion:

You will not find a better Quality/Affordability value for 1-12 hour events in the metro area! We charge only what we need to for our art and we offer what we know is the best possible balance of quality art, service, and price. We work tirelessly to achieve that. Our over 350 universally perfect 5-star reviews online attest to our success in that pursuit !!
